

Inclusion policy

'All children should have the opportunity to experience a challenging but enjoyable programme of learning and development'

Statutory Framework for the early years foundation Stage 2017

We are all individual and unique, and as such I will ensure that equal opportunities are offered to everyone within this setting (regardless of their gender, nationality, ethnic origin, ability, religious beliefs, sexuality, age and social and economic status)

I work with parents, carers and families to ensure that everyones individual needs and interests are met to allow them to develop to their full potential while with me. As I am only ever dealing with a small number of children this affords me the time and flexibility to be able to work with each child to ensure that they experience the best of all the activities we take part in and always feel a sense of belonging.

This also means that all children here are also encouraged to value diversity within our group and the wider community to help them develop ideas of fairness and a respect for everyone as a unique individual
